

Software Developer

SANNI CHAUDHARI

Surat, Mandvi, Gujarat | Email: chaudharisunny6@gmail.com | Phone: +91 87583 84049

GitHub: github.com/chaudharisunny

Objective

To obtain an entry-level software developer position where I can apply my knowledge of backend development, RESTful APIs, and databases to contribute to real-world projects while continuously learning and growing in a collaborative team environment.

Technical Skills

- Languages: JavaScript, HTML, CSS,
- Frameworks & Libraries: ReactJS, Node.js,
- Database: MongoDB
- Tools: Git, GitHub, VS Code, Postman
- Other: REST APIs, Debugging

Education

B. Tech in Information Technology

Gujarat Technological University], [Ahmedabad]

Graduation: 2021

Projects

Hospital Food Delivery Management System

- Built backend using **Node.js** and **MongoDB** to manage patient food orders
- Created secure **REST APIs** with **JWT** authentication
- Implemented order tracking, dietary preference logic, and data validation

Job Listing Portal

- Developed filtering, searching, and pagination using MongoDB queries
- Integrated frontend with **ReactJS** and **Axios**
- Created admin and user roles using role-based access control

Fire and Safety Management System

- Developed a full-stack web app using **ReactJS** (frontend) and **Node.js** (backend)
- Enabled logging and monitoring of **fire incidents** and **safety reports**
- Implemented user authentication, **role-based access**, and alert notification system
- Stored incident and report data in **MySQL** and used **RESTful APIs** for communication between frontend and backend
