

Software Developer

Objective

Motivated software development enthusiast with a strong foundation in JavaScript, Java, Python, HTML, CSS, C++, .NET, Node.js, ReactJS, and MySQL. Seeking to join Prashant Kumar LTD as a Software Development Intern to gain real-world experience and contribute to building impactful solutions.

Technical Skills

- Languages: JavaScript, Java, Python, C++, HTML, CSS, SQL
- Frameworks & Libraries: ReactJS, Node.js, .NET
- Database: MySQL
- Tools: Git, GitHub, VS Code, Postman
- Other: REST APIs, Debugging, Code Reviews, Technical Documentation

Education

B.Tech in Computer Science

[University Name], [City]

(Expected Graduation: YYYY)

Projects

Hospital Food Delivery Management System

- Built backend using Node.js and MongoDB to manage patient food orders
- Created secure REST APIs with JWT authentication
- Implemented order tracking, dietary preference logic, and data validation
- Deployed using Vercel serverless functions

Job Listing Portal

- Developed filtering, searching, and pagination using MongoDB queries
- Integrated frontend with ReactJS and Axios
- Created admin and user roles using role-based access control

Software Developer

Fire and Safety Management System

- Developed a full-stack web app using ReactJS (frontend) and Node.js (backend)
- Enabled logging and monitoring of fire incidents and safety reports
- Implemented user authentication, role-based access, and alert notification system
- Stored incident and report data in MySQL and used RESTful APIs for communication between frontend and backend
